

Program Update

Conference on the Geophysical Detection of Subsurface Water on Mars August 6 – 10, 2001

Monday, August 6, 2001

Added Talk

GEOMORPHIC EVIDENCE OF SUBSURFACE VOLATILES ON MARS

Hoffman N. *

*Searching for Water on a Cold Dry Mars: The
CO₂ Hypothesis*

Panel Discussion Cont.

THE NATURE OF THE CRYOSPHERES OF THE EARTH AND MARS

Moderators: C. Stoker, S. Clifford, and J.
George

Panelists: M. Carr, B. Hallet, N. Hoffman

It will continue at 3:45 p.m. Mars

**Exploration: Plans and Possibilities will
follow.**

Added Talk

MARS EXPLORATION: PLANS AND POSSIBILITIES

McCleese D. * [INVITED]

*Current Plans for the Next Decade of Mars
Exploration*

Added Poster

Chicarro A.F.

Looking for Water with Mars Express

Canceled Poster

Cummer S. A. Farrell W.M.

*Modeling the Complete planetary Subsurface
Radio Remote Sensing Problem*

Thursday, August 9, 2001

Canceled Talk

ALTERNATIVE PLATFORMS

Brownlow L.W. Dorn G. A. Mosher T. J.*

*A proposal for detailed Mapping of Martian
Aquifers using Penetrators*

Canceled Talk

ALTERNATIVE INVESTIGATIONS

Connerney J.E.P. * Acuna M.H.

*Detection of Sub-Surface Water on Mars by
Controlled and Natural Source Electromagne.
Induction*
